

## How To Sell Stuff On eBay For Free

Hey guys, in this video, we will be talking about how you can sell products on eBay for free. That means you don't have to buy anything before you sell it.

This method is perfect for anyone who's on a severely restricted budget and doesn't have the money to invest in products to sell.

Okay, this is a pretty simple system.

The first thing you're going to want to do is go to the free section of Craigslist.org.

Navigate to Craigslist.org and then under the "for sale" section, click on the "free" link.

Here you'll find tons of stuff, all listed for free. It's going to be local, and most of it you'll probably have to go and pick up from the person's house. But, if you hustle, you can find stuff to sell on eBay to make some money.

Let me show you an example.

I was scrolling through and I found this Tonto Action Figure in Original box. I did a search on eBay and found it selling for \$225.95. Now, that is a pretty nice profit. I'm actually probably going to go and pick this up. It's too great a deal for me to pass up.

So that's basically all you have to do. You go to Craigslist.org, click on the free section, then check eBay for products you think may sell for a profit.

The only tough part is that you may have to go and pick up the product to sell. Of course, if the mark up on eBay is big enough, for instance the Tonto action figure, I could contact the person giving it away and send them a shipping label via the USPS and have them ship the Tonto action

figure to me. This is a way you can find products in other areas, other cities, other states to sell. Just send the poster a message asking if it would be okay if they could ship it, and then send them the pre-paid shipping label. If they're okay with it then you've saved yourself a trip.

To check other states, go to [Craigslist.org](https://craigslist.org), then, if you land on your local page like this, right now I'm in Portland Oregon, then click the Craigslist link in the upper left hand corner. Now you can search craigslist ads all over the world. To search specific states, click the US link here. Now you can choose all of the different states in the US and look for free stuff to promote.

And that's it. That's all you have to do. Just find free stuff on Craigslist, check eBay, then pick up or have the free stuff sent to you, then list it and sell it on eBay.

And you don't have to spend a dime to do it!

Okay, well that's it for this video. Thanks for watching. We'll talk soon. Bye Bye.
