

Video 3 Example Product 1

In this video, I'll be showing you an actual example of how this system works.

Let's dive right in...

Okay, so, I'll work from the list I provided and will start with Sunglasses.

First, I'll go to Ebay.

Now, I'll click on the "Advanced" link to the right of the blue Search button.

I'll enter my keyword "sunglasses" in the search box at the top.

Next I'll select price and show items priced from 10 . You can enter a higher number or a lower number if you wish. However, I've found that 10 is a nice number to find the best deals.

Okay, Under "Buying format" you'll want to select "Buy It Now".

Then, under "Condition" you'll want to select "New."

Now click "Search"

Scroll down and what we are looking for is a higher number of sales. See here, this pair of sunglasses, these Oakleys, have sold....

So, let's go to Amazon and see if there are any deals that we can take advantage of.

So, go to Amazon.com, and in the search box, type in oakley sunglasses.

Now, let's scroll through and see if we can find any deals.

Here, these Oakley Men's Latch Round.

Let's check these out.

Okay, they are selling for 32.95 and free shipping. That's 73% off for a savings of \$87.05.

Pretty darn good.

Now, let's go back to eBay and see what Oakley Men's Latch Round sunglasses are selling for.

Okay, as you can see, they are selling for at least twice the Amazon price.

This is where you can either go ahead and list the item on eBay and then ship to the customer directly from Amazon. Or you can actually purchase some of the sunglasses from Amazon and then ship the sunglasses to the customer yourself.

Remember, eBay frowns on shipping directly from Amazon, and it can get your account banned. So think about that before you do it.
